AccioIbis

19th Nov, 2022

Subject: Internship Certificate

This is to Certify that Pratham Saraf have worked as a Machine Learning Intern with AccioIbis, from 19th September, 2022 to 18th November, 2022.

Project Details: He has worked on developing AI applications for AccioIbis's core products under the guidance of Anindya Paul. During his tenure, he worked extensively on NLP, building algorithms pertaining to Document Retrieval, Semantic Search, Long Form Question Answering. He also deployed our models in GCP for inferencing. Further, he also helped us to evaluate opensource Text2Image models and their variants (Stable Diffusion, Dreambooth, Textual Inversion) along with Speech Recognition model (Whisper).

Feedback: Pratham is a hardworking and amazing Engineer who takes on new projects with a "can-do" attitude and manages to complete the work. He has single handedly developed the AI algorithms of First Version of our Semantic Search Engine – Accintia.

Sincerely,

For **AccioIbis**

Founder & CEO

Anindya Paul
